

Program Overview: B.A. in Psychology

Faculty: Irving K. Barber Faculty of Arts and Social Sciences

Department: Psychology

Level: Bachelors

Program Learning Outcomes

Program learning outcomes (PLOs) are the knowledge, skills and attributes that students are expected to attain by the end of a program of study.

Program Learning Outcome

Knowledge Base

- | | |
|---|--|
| 1 | Key concepts and themes
Describe key concepts, principles, and overarching themes in psychology |
| 2 | Working knowledge of content domains
Develop a working knowledge of psychology's content domains |
| 3 | Applications of Psyc
Describe applications of psychology |

Scientific Inquiry & Critical Thinking

- | | |
|---|--|
| 4 | Scientific reasoning
Use scientific reasoning to interpret psychological phenomena |
| 5 | Psyc info literacy
Demonstrate psychology information literacy |
| 6 | Innovative problem-solving
Engage in innovative and integrative thinking and problem solving |
| 7 | Conduct basic research
Interpret, design, and conduct basic psychological research |
| 8 | Incorporate sociocultural factors
Incorporate sociocultural factors in scientific inquiry |

Ethical & Social Responsibility in a Diverse World

- | | |
|----|--|
| 9 | Apply ethical standards
Apply ethical standards to evaluate psychological science and practice |
| 10 | Interpersonal relationships
Build and enhance interpersonal relationships |
| 11 | Build community
Adopt values that build community at local, national, and global levels |

Communication

12	Effective writing Demonstrate effective writing for different purposes
13	Presentation skills Exhibit effective presentation skills for different purposes
14	Effective interactions Interact effectively with others
Professional Development	
15	Application to career goals Apply psychological content and skills to career goals
16	Self-efficacy Exhibit self-efficacy and self-regulation
17	Project management Exhibit self-efficacy and self-regulation
18	Teamwork capacity Enhance teamwork capacity
19	Professional direction Develop meaningful professional direction for life after graduation

Mapping Scales

The mapping scale indicates the degree to which a program learning outcome is addressed by a course learning outcome.

Mapping Scale

■ Introduced (I)	Students are not expected to be familiar with the content or skill at the collegiate level. Instruction and learning activities focus on basic knowledge, skills, and/or competencies and entry-level complexity. Only one (or a few) aspect(s) of a complex program outcome is addressed in the given course.
■ Reinforced/Practiced (R/P)	Students are expected to possess a basic level of knowledge and familiarity with the content or skills at the collegiate level. Instruction and learning activities concentrate on enhancing and strengthening knowledge, skills, and expanding complexity. Several aspects of the outcomes are addressed in the given course, but these aspects are treated separately. / LOs are reinforced, students are afforded opportunities to practice
■ Mastered (M)	Students are expected to possess a strong foundation in the knowledge, skill, or competency at the collegiate level. Instructional and learning activities continue to build upon previous competencies with increased complexity. All components of the outcome are addressed in the integrative contexts.

Additional Denominations

	Occurs when two or more CLOs map to a PLO an equal amount of times.
?	Occurs when a course has not yet been mapped to the set of PLOs.
N/A	Occurs when a course instructor has listed a program learning outcome as being not applicable for a program learning outcome.

Curriculum MAP: Frequency Distribution Tables

This table shows the alignment of all courses to program learning outcomes for this program.

100 Level

Courses	Program Learning Outcomes				
	Knowledge Base
